

Week beginning: 30th March, 2020

SUGGESTED LEARNING ACTIVITIES: Years 5 & 6

Dear parents / children,

We hope you are managing to stay well and keeping busy.

I am sure you still have many activities to do and cannot possibly have got through all the work uploaded! Certainly, the Mathematics' books will keep you going but do let us know if there are areas you would like to work on.

I hope you are making the most of the sunshine! As well as the information below, in the folder are also details of some of the **activities** we have been enjoying at school this week – perhaps save the written activities for rainy days. Also, some ideas for **life skills** ...

With very best wishes,

Mrs Kong & the phase 5/6 team

Maths:

In the folder you will find a pdf with ideas for outdoor maths. Don't worry if you don't have a meter stick ... just cut a piece of string to size.

English:

Wind in the Willows.

If you have watched either the musical or the end of the film version, please write a paragraph:

Outlining your favourite part of the story and explaining why.

If you haven't had time yet, below are the links:

Film version:

<https://www.youtube.com/watch?v=gtX9ycjUloE>

Also, the **musical version**:

https://www.whatsonstage.com/london-theatre/news/wind-in-the-willows-coronavirus-stream-free_51205.html

You need to sign up to stream for free.

Computing:

Mr Smith has uploaded an activity into the folder. This is to create pixel artwork in Excel.

Citizenship: (YEAR 6)

Poster competition: Following your afternoon at Epsom Racecourse, you can design a poster. This should relate to the event and what you learnt, or have done as a result of attending.

I have added the template to the home learning folder. The deadline is Friday 1st May so I will let you know, nearer the time, if you need to post them to me.

Remember to make them really eye catching, make sure ALL spellings are accurate and that the message is clear.

Reading:

Continue to enjoy a range of books and different texts. Use Read Theory if you'd like.

Geography

The Water Cycle

If you've made a model, do photograph it and send it to us ... via the office email: westcott@surreyhills.surrey.sch.uk

(I attach a photo of one brilliant model ... well done Natalia.)

Computer Links:

Time Tables Rock Stars:

I was hoping to see some year 5s or 6s at the top of the leader board! At the moment we only have 2 in the top ten and no-one in the top 5! Come on who can improve their speed and accuracy?

Purple Mash (children have log-ins)

There seems to be some issues with this site (probably due to the amount of children trying to access it!)

If you can log-on ... continue to explore.

Twinkl

Twinkl is a vast educational resource. It is being offered free for this period of time. In order to access, follow these steps:

Step 1: Go to www.twinkl.co.uk/offer

Step 2: Enter the code you have received, or CVDTWINKLHELPS if you have not yet been given a code.

Use the search option to find suitable resources (for year group and subject). There is also a *PARENTS' HUB* with ideas.

We have saved the School Closure Home Learning Resource Packs for Year 5 and Year 6 in the Home Learning folder.

TTS:

The TTS 7-11 activity book has a range of activities for Art and Design, Languages, Computing, History, Geography, Music, Mindfulness and wellbeing and PE, as well as English and Maths.

This is also in the folder and chosen activities can be downloaded / printed / or read.
