#### Adding to my child's online Learning Journey

Your input in your child's learning journey is invaluable! It is important that school and parents/carers have a shared understanding of where a child is on their individual learning journey. It is all about **capturing a moment when something significant happens** and those moments that make you go 'wow'. Observations can come in the form of a note, picture or video recording (if under ten minutes). All of which can be uploaded to the learning platform.

#### What could I write?

- What a lovely surprise! I had no idea my child could...
- I was so happy with my child because...
- I was over the moon with my child today because...
- What a brilliant time we had together recently...

#### What should observations be about?

- New learning
- Progress
- Developing interests
- SIGNIFICANT ACHIEVEMENTS
